# 1. Open the app

Open RC Axis on your mobile phone or tablet.

If you haven't installed the app yet, go to the App Store or Google play store, search for 'RC Axis' and tap 'download'.

#### 1. Activate

Tap on 'Activate'

# 4. Create new Password

Choose a new Password.

## 5. Authentication Code

Enter your mobile phone number. You will receive a text message containing a one-time passcode.

Enter the six-digit authentication code sent to your mobile number. If your session has timed out, go back to the login page and enter your user ID and password.

You will then be given the option to set up a preferred Multi-Factor Authentication method.

#### 6. Multi-Factor Authentication

Tap 'Authentication app' as your preferred twofactor authentication method. You may need to set up an authenticator app if you do not already have one installed.

Two popular Authenticator links are below:

Microsoft Authenticator (iOS)

Google Authenticator (iOS)

Microsoft Authenticator (Google Play) Google Authenticator (Google Play)
